BAGGAGE DEFINED

All rules and regulations published in this section supercede rules and regulations published in National Baggage Tariff, ICC NBTA 10, and apply locally and interline on the lines of Greyhound Lines, Inc. and Valley Transit Co., Inc. and interline between the named carriers and those shown in Section 2 of this Manual.

All baggage transported in baggage service must be in a container that can withstand handling and piling that occurs during transportation. This is to protect its contents, and to make sure that it will not damage other property. It must be securely closed, strapped, roped or tied and must have a handle or other way to attach a Baggage Claim Check. Baggage not in containers will be accepted providing that it can withstand handling and piling without damage to itself or other property.

Baggage can be either personal or sample baggage.

1. Personal baggage includes clothing, toiletries (except liquids in glass containers) and similar personal effects. These items are for the wear, use, comfort, convenience of the passenger or purpose of the journey. Personal baggage does not include items intended for sale. No prohibited items will be permitted in baggage service. For a list of prohibited items see "Prohibited Items in Baggage Service" in this section.
2. Sample baggage includes property for the commercial use of the passenger, such as catalogues, models, samples of goods, wares or merchandise. These items are for use by the passenger in making sales, or other disposition of the goods. No prohibited items will be permitted in baggage service.

FRAGILE ITEMS

Fragile items must be wrapped in bubble-plastic, packed in styrofoam (molded, pellets, or sheets), or in placed cardboard containers with corrugated partitions to prevent damage to the fragile item. Clothing, bedding material, newspaper is not considered adequate protection for fragile items.

Carriers will not accept liability for a greater value than \$1,000 on any single piece of baggage for checked on either adult- or child's-fare tickets, regardless of the number of pieces of baggage. In no event will the liability exceed the actual value of the baggage at the place and time of checking.

A claim for loss of or damage to baggage will not be voluntarily paid by a carrier unless filed in writing within 30 days from the time the passenger arrived at the destination to which the baggage was checked.

Carriers will make immediate and diligent efforts to recover lost checked baggage. If the lost checked baggage cannot be located within 15 days, the carrier will immediately process the matter as a claim. The date the tracing form was received by the carrier or carrier's agent will be considered as the first day commencing a 60-day period before which a claim will be settled. All claims for lost baggage will be settled within 90 days from date carrier received tracing form either by firm offer or denial. Greyhound will acknowledge claim, in writing, within 30 days of receipt.

Concealed and/or exterior loss or damage will be reported in writing within 7 days after delivery of baggage and carrier will be given the opportunity of making an inspection of the baggage. A claim involving concealed and/or exterior loss or damage must be filed within 7 days after delivery of the baggage.

If investigation of a Claim develops that one or more other Carriers has been presented with a similar Claim on the same Baggage, the Carrier, investigating such Claim will communicate with each such other Carrier and, prior to any agreement entered into between or among them as to the proper disposition of such Claim or Claims, will notify all Claimants of the receipt of conflicting or overlapping Claims and will require further substantiation, on the part of each Claimant, of his right with respect to such Claim.
