38	17.85	20.88	21.22	26.71	25.61	27.41	33.13	36.79

Pricing is based on the cumulative of the greater of either the dimensional or actual weight of each piece and Domestic Cubic Weight Formula: (length x width x height) in inches divided by 1,728 x10 = cubic weight in pounds. Greyhound Canada Transportation reserves the right to re-weigh all packages or take the Volumetric weight (also referred to as Dimensional or Cubic Weight), and charge the highest of the total re-weight of total Volumetric weight per package. Volumetric weight is calculated by multiplying the dimensions of your package by a factor of 10 lbs per cubic foot for Domestic Shipments. The customer acknowledges that charges based on the weight determined by Greyhound Canada Transportation shall be levied and agrees to pay same.

For explanation of Abbreviations, Designations and Reference Marks, not explained on this page, see Section A.

75	57.40	63.19	70.15	69.81	74.74	114.08	136.83

Pricing is based on the cumulative of the greater of either the dimensional or actual weight of each piece and Domestic Cubic Weight Formula: (length x width x height) in inches divided by 1,728 x10 = cubic weight in pounds. Greyhound Canada Transportation reserves the right to re-weigh all packages or take the Volumetric weight (also referred to as Dimensional or Cubic Weight), and charge the highest of the total re-weigh of total Volumetric weight per package. Volumetric weight is calculated by multiplying the dimensions of your package by a factor of 10 lbs per cubic foot for Domestic Shipments. The customer acknowledges that charges based on the weight determined by Greyhound Canada Transportation shall be levied and agrees to pay same.

For explanation of Abbreviations, Designations and Reference Marks, not explained on this page, see Section A.

Pricing is based on the cumulative of the greater of either the dimensional or actual weight of each piece and Domestic Cubic Weight Formula: (length x width x height) in inches divided by 1,728 x10 = cubic weight in pounds. Greyhound Canada Transportation reserves the right to re-weigh all packages or take the Volumetric weight (also referred to as Dimensional or Cubic Weight), and charge the highest of the total re-weight of total Volumetric weight per package. Volumetric weight is calculated by multiplying the dimensions of your package by a factor of 10 lbs per cubic foot for Domestic Shipments. The customer acknowledges that charges based on the weight determined by Greyhound Canada Transportation shall be levied and agrees to pay same.

For explanation of Abbreviations, Designations and Reference Marks, not explained on this page, see Section A.

38	17.85	20.88	21.22	26.71	25.61	27.41	33.13	36.79

Pricing is based on the cumulative of the greater of either the dimensional or actual weight of each piece and Domestic Cubic Weight Formula: (length x width x height) in inches divided by 1,728 x10 = cubic weight in pounds. Greyhound Canada Transportation reserves the right to re-weigh all packages or take the Volumetric weight (also referred to as Dimensional or Cubic Weight), and charge the highest of the total re-weigh of total Volumetric weight per package. Volumetric weight is calculated by multiplying the dimensions of your package by a factor of 10 lbs per cubic foot for Domestic Shipments. The customer acknowledges that charges based on the weight determined by Greyhound Canada Transportation shall be levied and agrees to pay same.

For explanation of Abbreviations, Designations and Reference Marks, not explained on this page, see Section A.

74	56.89	62.57	69.51	69.21	74.12	112.85	135.29
75	57.40	63.19	70.15	69.81	74.74	114.08	136.83

Pricing is based on the cumulative of the greater of either the dimensional or actual weight of each piece and Domestic Cubic Weight Formula: (length x width x height) in inches divided by 1,728 x10 = cubic weight in pounds. Greyhound Canada Transportation reserves the right to re-weigh all packages or take the Volumetric weight (also referred to as Dimensional or Cubic Weight), and charge the highest of the total re-weight of total Volumetric weight per package. Volumetric weight is calculated by multiplying the dimensions of your package by a factor of 10 lbs per cubic foot for Domestic Shipments. The customer acknowledges that charges based on the weight determined by Greyhound Canada Transportation shall be levied and agrees to pay same.

For explanation of Abbreviations, Designations and Reference Marks, not explained on this page, see Section A.

EFFECTIVE: JUNE 27, 2011

Pricing is based on the cumulative of the greater of either the dimensional or actual weight of each piece and Domestic Cubic Weight Formula: (length x width x height) in inches divided by 1,728 x10 = cubic weight in pounds. Greyhound Canada Transportation reserves the right to re-weigh all packages or take the Volumetric weight (also referred to as Dimensional or Cubic Weight), and charge the highest of the total re-weight of total Volumetric weight per package. Volumetric weight is calculated by multiplying the dimensions of your package by a factor of 10 lbs per cubic foot for Domestic Shipments. The customer acknowledges that charges based on the weight determined by Greyhound Canada Transportation shall be levied and agrees to pay same.

For explanation of Abbreviations, Designations and Reference Marks, not explained on this page, see Section A.

35	23.85	17.16	19.98	20.44	25.78	24.68	26.45	31.81

Pricing is based on the cumulative of the greater of either the dimensional or actual weight of each piece and Domestic Cubic Weight Formula: (length x width x height) in inches divided by 1,728 x10 = cubic weight in pounds. Greyhound Canada Transportation reserves the right to re-weight all packages or take the Volumetric weight (also referred to as Dimensional or Cubic Weight), and charge the highest of the total re-weight of total Volumetric weight per package. Volumetric weight is calculated by multiplying the dimensions of your package by a factor of 10 lbs per cubic foot for Domestic Shipments. The customer acknowledges that charges based on the weight determined by Greyhound Canada Transportation shall be levied and agrees to pay same.

For explanation of Abbreviations, Designations and Reference Marks, not explained on this page, see Section A.

70	52.47	54.85	60.09	66.95	66.81	71.64	107.93	129.13

Pricing is based on the cumulative of the greater of either the dimensional or actual weight of each piece and Domestic Cubic Weight Formula: (length x width x height) in inches divided by 1,728 x10 = cubic weight in pounds. Greyhound Canada Transportation reserves the right to re-weigh all packages or take the Volumetric weight (also referred to as Dimensional or Cubic Weight), and charge the highest of the total re-weight of total Volumetric weight per package. Volumetric weight is calculated by multiplying the dimensions of your package by a factor of 10 lbs per cubic foot for Domestic Shipments. The customer acknowledges that charges based on the weight determined by Greyhound Canada Transportation shall be levied and agrees to pay same..

For explanation of Abbreviations, Designations and Reference Marks, not explained on this page, see Section A.

38	63.56	65.59	73.67	73.51	78.28	102.57	118.33

Pricing is based on the cumulative of the greater of either the dimensional or actual weight of each piece and Domestic Cubic Weight Formula: (length x width x height) in inches divided by 1,728 x10 = cubic weight in pounds. Greyhound Canada Transportation reserves the right to re-weigh all packages or take the Volumetric weight (also referred to as Dimensional or Cubic Weight), and charge the highest of the total re-weight of total Volumetric weight per package. Volumetric weight is calculated by multiplying the dimensions of your package by a factor of 10 lbs per cubic foot for Domestic Shipments. The customer acknowledges that charges based on the weight determined by Greyhound Canada Transportation shall be levied and agrees to pay same.

For explanation of Abbreviations, Designations and Reference Marks, not explained on this page, see Section A.

Pricing is based on the cumulative of the greater of either the dimensional or actual weight of each piece and Domestic Cubic Weight Formula: (length x width x height) in inches divided by 1,728 x10 = cubic weight in pounds. Greyhound Canada Transportation reserves the right to re-weigh all packages or take the Volumetric weight (also referred to as Dimensional or Cubic Weight), and charge the highest of the total re-weight of total Volumetric weight per package. Volumetric weight is calculated by multiplying the dimensions of your package by a factor of 10 lbs per cubic foot for Domestic Shipments. The customer acknowledges that charges based on the weight determined by Greyhound Canada Transportation shall be levied and agrees to pay same.

For explanation of Abbreviations, Designations and Reference Marks, not explained on this page, see Section A.

Pricing is based on the cumulative of the greater of either the dimensional or actual weight of each piece and Domestic Cubic Weight Formula: (length x width x height) in inches divided by 1,728 x10 = cubic weight in pounds. Greyhound Canada Transportation reserves the right to re-weight all packages or take the Volumetric weight (also referred to as Dimensional or Cubic Weight), and charge the highest of the total re-weight of total Volumetric weight per package. Volumetric weight is calculated by multiplying the dimensions of your package by a factor of 10 lbs per cubic foot for Domestic Shipments. The customer acknowledges that charges based on the weight determined by Greyhound Canada Transportation shall be levied and agrees to pay same.

For explanation of Abbreviations, Designations and Reference Marks, not explained on this page, see Section A.

37	62.80	64.65	72.70	72.60	77.34	100.72	116.03
38	63.56	65.59	73.67	73.51	78.28	102.57	118.33

Pricing is based on the cumulative of the greater of either the dimensional or actual weight of each piece and Domestic Cubic Weight Formula: (length x width x height) in inches divided by 1,728 x10 = cubic weight in pounds. Greyhound Canada Transportation reserves the right to re-weigh all packages or take the Volumetric weight (also referred to as Dimensional or Cubic Weight), and charge the highest of the total re-weight of total Volumetric weight per package. Volumetric weight is calculated by multiplying the dimensions of your package by a factor of 10 lbs per cubic foot for Domestic Shipments. The customer acknowledges that charges based on the weight determined by Greyhound Canada Transportation shall be levied and agrees to pay same.

For explanation of Abbreviations, Designations and Reference Marks, not explained on this page, see Section A.

35	36.43	40.49	40.33	46.90	45.15	47.10	54.05	58.87

Pricing is based on the cumulative of the greater of either the dimensional or actual weight of each piece and Domestic Cubic Weight Formula: (length x width x height) in inches divided by 1,728 x10 = cubic weight in pounds. Greyhound Canada Transportation reserves the right to re-weigh all packages or take the Volumetric weight (also referred to as Dimensional or Cubic Weight), and charge the highest of the total re-weight of total Volumetric weight per package. Volumetric weight is calculated by multiplying the dimensions of your package by a factor of 10 lbs per cubic foot for Domestic Shipments. The customer acknowledges that charges based on the weight determined by Greyhound Canada Transportation shall be levied and agrees to pay same.

For explanation of Abbreviations, Designations and Reference Marks, not explained on this page, see Section A.

100+	0.35	0.46	0.41	0.50	0.47	0.53	0.65	0.76

Pricing is based on the cumulative of the greater of either the dimensional or actual weight of each piece and Domestic Cubic Weight Formula: (length x width x height) in inches divided by 1,728 x10 = cubic weight in pounds. Greyhound Canada Transportation reserves the right to re-weigh all packages or take the Volumetric weight (also referred to as Dimensional or Cubic Weight), and charge the highest of the total re-weight of total Volumetric weight per package. Volumetric weight is calculated by multiplying the dimensions of your package by a factor of 10 lbs per cubic foot for Domestic Shipments. The customer acknowledges that charges based on the weight determined by Greyhound Canada Transportation shall be levied and agrees to pay same.

For explanation of Abbreviations, Designations and Reference Marks, not explained on this page, see Section A.

**INSTRUCTIONS RELATING TO LOOSE-LEAF PLAN OF TARIFF**

1. This publication is issued in Loose-Leaf form and all changes and additions will be published as loose-leaf revised pages.
2. When a page in this Tariff is reprinted the first time, it will be designated "First Revised Page." Each subsequent reprint of such page will be numbered consecutively, i.e. "Second Revised Page...", "Third Revised Page...", etc. Pages cancelled by revised pages should be removed from Publication when the revised pages take effect.
3. Where changes or additions to be made are in excess of the available space, a page will be added to the Tariff, to which the same number will be given, designated by the letter affix, thus: "A-2a", "B-4a", "C-6a", as the case may be. The reprint of such pages will be numbered consecutively as "First Revised Page C-6a" or "Second Revised Page C-6a" etc., and pages cancelled thereby should be removed from Tariff when revised pages take effect.

EXCEPTION: When pages are added following last consecutively numbered page in the Tariff, or a section carrying a separate series of numbers, such additional page or pages will be given the next consecutive number or numbers, and will be designated as "Original Pages".

4. It is important that users of this Tariff promptly on receipt of revised or added pages, carefully file such pages in proper place in Tariff and also check same in accordance with the instructions given below.

**CHECKING SHEET FOR TARIFF**

5. Upon the receipt of revised or new pages, a check must be placed opposite the "Correction" number (shown below) corresponding to number shown on lower right hand corner of the new or changed pages. If "Correction" numbers are properly checked as received, check marks will appear in consecutive order with no omissions; however, if check marks indicate that a "correction" has not been received, request should be made for copy of same.
